

The background image shows an industrial landscape at dusk or dawn. On the left, there are several tall, dark smokestacks or chimneys, some of which are illuminated from within, casting a warm glow. To the right, several large wind turbines are visible, their blades silhouetted against the sky. The sky is a mix of dark blue and teal, suggesting the time is either early morning or late evening. The overall scene is a blend of traditional industry and modern renewable energy.

Mining

Energy

Industry

Our Main Roles

We Enable the National Strategies

Supporting the growth of these sectors to create an attractive environment for investments in Saudi Arabia, through:

Training

We offer diverse financing solutions, including project funding, working capital, acquisitions, guarantees, and financial facilities to support supply chains and sustainability and letters of credit. These efforts contribute to fostering growth and sustainability in the industrial sector.

Advisory

We provide specialized advisory solutions to enhance industrial growth by optimizing costs, developing strategies, improving operations, conducting market studies, and supporting SMEs through strategic partnerships and industrial incubators.

Financing

Since our inception, we have supported industrial development by building capabilities through specialized training, global educational partnerships, and professional development programs—aligning with national goals.

Our Main Roles

Financial

Advisory

Training

We Offer Multiple Financing Solutions that Suit Your Development Needs

Project Finance	Medium to long-term, for new & existing projects
Multi Purpose Loans	Medium-term, financing operational capital expenditure
Acquisition Finance	Medium-term, financing acquisitions
Working Capital Financing	Short-term, financing operational expenses
Supply Chain Financing	Short-term financing to facilitate early invoice payments that aims to support working capital needs and improve cashflows
Letter of Credit	Securing the necessary liquidity by providing a guarantee to issue the Letter of Credit in cooperation with commercial banks

And Development Incentives Aligned With National Priorities

Tawteen Program

Cooperating with major companies to localize supply chains to increase local content contribution

Mutajadedda Program

Program aims to increase the use and production of renewable energy components in the Kingdom

Tanafusiyah Program

A program that supports the improvement of existing factories by applying digital technologies to support the transition towards the Fourth Industrial Revolution

Talent Development Programs

We provide an inspiring environment and a comprehensive set of programs to develop and empower future leaders.

Scholarship Program

It aims to build expertise within SIDF by supporting employees by sending them on scholarships to complete their master's or doctoral studies in the fields targeted by SIDF.

Business and Leadership Training Program

It prepares potential leaders by providing them with the skills and knowledge necessary to hold leadership positions. The program is offered in partnership with the Stanford Center for Professional Development and targets employees with at least 5 years of experience.

Secondment Program

An on-the-job training program for SIDF's employees, through assigning them to work temporarily with leading entities in the targeted fields inside and outside the Kingdom.

Mentorship Program

A program that connects early career workers with experienced SIDF's employees to transfer knowledge and develop their careers.

Executive Mentoring Program

Providing specialized mentors for executives to hone leadership capabilities and support skills development.

Specialized Training Program

Development programs targeting job competencies to allocate an individual training path for each employee.

Our Main Roles

Financial

Advisory

Training

Scholarship Program

Enabling SIDF's employees to acquire the latest scientific and professional knowledge and expertise, by sending them annually to the most prestigious scientific edifices in the world.

Innovation at SIDF

Innovation strengthens the role of the Industrial Fund in supporting industrial transformation in Saudi Arabia by developing creative solutions to existing challenges or introducing new ideas, then transforming them into real projects and implementing them efficiently on the ground.

Innovation at SIDF

Industrial Hackathon

With the participation of talented Saudis and residents

By organizing the Industrial Hackathon, we aim to provide a platform that links the ideas and creativity of young Saudi men and women with the needs of national manufacturers. To provide them with effective solutions to the problems they face, which contributes to supporting the attractiveness of national products among international products and achieves progress in raising the customer satisfaction index with national products.

Hackathon
Events:

Target
Audience:

■ Workshops

Males or
females aged
18 and above

■ Mentoring Sessions

Entrepreneurs
and startups

■ Presentations

Students and
researchers

■ Valuable Prizes

Engineers and
industrial
designers

Developers
and
programmers
